DISCLAIMER

The Admissions Exercise for International Students (AEIS) and the Supplementary Admissions Exercise for International Students (S-AEIS) are centralised admission examinations conducted by the Ministry of Education (MOE) for foreign students who wish to join the mainstream primary and secondary schools.

The posting of a student is based on the student's test performance, availability of school vacancies and the student's intended residential address in Singapore.

The MOE does not normally accept any school choice requests, release test scores or accept school transfer requests.

While we do our best to prepare students for the AEIS and S-AEIS exams, we cannot guarantee successful admission.

International students and their parents may refer to the MOE website for the latest updates:
